

Client: Hobson & Porter Ltd

Programme: 24 Weeks

Value: £141,000

Client's Requirements

A safe & reliable contractor was required to work on the Newington & St Andrews Regeneration project, this involved working on & around public footways for a public sector client through Hobson & Porter.

Yorkshire Groundworks Contribution

Our Groundworks package included:-

- Demolish/Renew boundary walls –** Demolish the existing walls then hand dig to excavate (to avoid hitting services) new foundations then concrete to levels.
- Renew garden areas** To multiple specifications for different properties, initially break out the existing gardens then prepare & lay new garden path & aprons as well gravel or topsoil the rest of the garden. Either slab paving or brush concrete for hard areas.
- Renew alleyways** Break up the existing surface, replace drainage & pave with tegula block paving.

Client Feedback

Yorkshire Groundworks working in close partnership with Hobson & Porter were able to deliver the project ahead of programme.
